### **RELEASE DESCRIPTION** (Indicate All Unknowns with UK)

1.	Cause of Release
2.	Product Lost From: Tank Pipe Overfill/Spill Estimated Amount Lost (gallons)
3.	Tank Numbers
	Product Types , , , , , , , , , , , , , , , , , , ,
	Tank/Pipe Ages
	Capacities,,,,,,,
	Material of Construction: Steel
4.	UST/PST System Types  Underground Tanks & Piping Aboveground with Underground Pipe Aboveground with Aboveground Pipe Piping Pressure/Suction
	Other (explain)
5.	How Was Release Discovered?  Tank/Piping Removal Soil Staining? Odors? Sheen on Groundwater?  Type of Field Monitoring Equipment Used? (give readings if applicable)
	Soil/Water Samples (results)
	Tightness Test (Tested by)
	UST System Leak Detection Equipment (type)
	Surface Spill (estimated amount)
	Complaint
	Product Inventory (loss amount)
	Other (describe)
6.	Check if impacts to: Groundwater Surface Water Drinking Water Supply Public Private

7.	Estimated depth to groun	ndwater	How es	stimated		_
8.	Estimated distance from	release site to drin	king water sup	ply		
9.	Is free product present?	How determ	nined	Thicknes	S

Please provide additional information on attached pages, when space is not adequate for your response.

If you have difficulty understanding or gathering any part of the information requested on this form, please contact the DEQ Petroleum Release Section promect manager at (406) 841-5000 for assistance.

### **D. SITE CHARACTERISTICS**

(DEQ is concerned about consumption of contaminated groundwater and vapors impacting a nearby utility corridor or structures. To help evaluate the potential threat to public health and the environment, please provide the following information as completely as possible. Also, locate these features not the site sketch map on the adjacent page.)

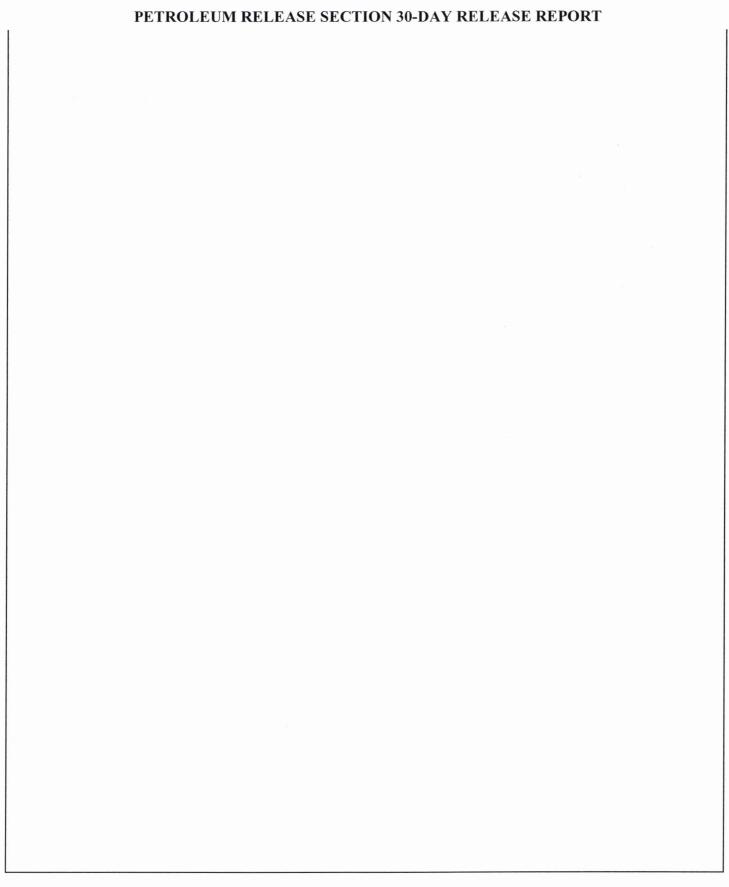

1. Describe soil type(s) (sand, clay, etc.) and	d change with depth (	include diagram, if nece	essary)	
				****
2. Ground cover at point of release:				
Asphalt Concrete	Native soil	Other (describe)		
Will this change in the near future?	· How?			
3. Depth to groundwater:		How determined?		
4. Groundwater flow direction		How determined?		
Note: Good	d sources of information a	re DNRC and City or County	Sanitarians)	
5. Was water present in the excavation?		How Deep?		
6. Was a petroleum sheen (rainbow or scum	) present on top of th	e water?		
7. Was petroleum product present in the exc	avation or on the war	ter?	How thick?	
8. Did water or soil have a petroleum odor?		Describe		
9. Are water supply wells located on your property?		On your neighbor's pr	roperty?	
If yes, complete the following	table. Be sure to inc	clude the nearest munici	pal well and neighbor'	s wells.
WATER SUPPLY WELL INFORMATION	Your Well	Well	Well	Well
Distance from release				
Direction from release				
Total well depth				
Depth to water				
Use of water				
10. Distance and direction from release to no	earby underground ut	tilities and type (storm d	rain, sewer, water, gas,	phone, etc.)
11. Name and phone numbers of persons or (explain on additional pages if necessary)	businesses affected b	by this release, such as va	apor problems or contar	minated wells, etc.
(explain on additional pages if necessary)				
				``
12. Distance and direction from release to n	earest surface water	(river, lake, stream, irrig	ation/drainage ditch, et	c)
13. Other petroleum sources in the immediat	te area (on and off yo	our facility) (type, distant	ce, direction)	
14 Noouhy Sturstings (out	d identify on Facility	ty Chatab Man an Dan-	. 6)	
14. Nearby Structures (cross-reference an	d identity on Facilit	ly Sketch Map on Page	: 0)	

(a.) Distance and direction from release from release to nearest	building:
Basement Crawl Space Slab on Grade	Other (explain)
Use or Occupancy	Is building on same property as release?
